Revenue and profit: Group: During the year, the Group has earned a Revenue of RO 71.87 Million against RO 92.59 Million in the last year, a decrease of 22%.

This is because of lower volume of sales, both in local and export markets. The reason for decrease in local market is competition and in export markets mainly in Yemen is due to socio disturbance which resulted loss of volume in some areas.
The Profit Before Tax of the Group stood at RO 8.03 Million as against RO 22.90 Million in last year, a decrease of 65%. The Group operating profit has decreased to RO 6.72 Million in the current year from RO 22.41 Million in last year i.e. a decrease by 70%.

Declining market (by 21%), lower price realization, lower production, higher costs resulting from higher energy cost, raw material cost and maintenance cost have impacted group bottom line.

Energy costs are significantly affected by increase in power tariff to RO 0.027 from RO 0.016/KWH increase of 69%, by RO 1.698 million followed by 3% increase in gas price that is about RO 0.272 million in costs for parent company. Further, a provision for impairment is made against Limestone mine located in UAE and Georgia RO 415K and RO 463K.

Higher raw materials costs by RO 0.270 million is mainly due to external hiring for Limestone and shale stone drilling and transportation costs due to the distant LS quarry. Maintenance cost is higher by RO 412K due to major maintenance activities carried out during current year for line 3.

Furthermore, the market value of securities decreased by RO 0.373 Million compared to the last year which is compensated by the profit from sale of one of an associated company Oman Portuguese Cement Products LLC.

The Profit after Tax for the Group has decreased to RO 5.81 Million from RO 20.71 Million, a decrease of 72% during the year.

This is because of the reasons mentioned above and changes in income tax law wherein the tax rates have been revised to 15% from 12% in current year that increased deferred tax liability by RO 0.794 million and placed total tax liability to RO 2.213 million from RO 2.186 million in spite of lower profits.

**Parent Company:** Severe price competition from the UAE suppliers, and the volatility in the export market, the Parent Company could achieve a Sales Revenue of RO 49.89 Million during the year against RO 65.80 Million during the last year, a decrease by 24%.
